Cover all childrens toys and articles

Bedrooms

Pull all furniture away from the walls approximately 50 centimetres.

Remove all articles from closet floor.

Cover all childrens toys, articles and bedding

Bathroom

Pull all furniture away from the walls approximately 50 centimetres.

General

- All pets (any air breathing animal) should be removed from the home during spraying and remain out of the home for minimum of 2 hours after treatment.
- Cover fish bowls or tanks with plastic and leave in their original location.
- Leave all plants where they are normally located. The treatment will not affect them.
- Do NOT wash floors around the baseboards after treatment for a minimum of 30 days.
- Sweeping and vacuuming on a daily basis is recommended.
- Wipe down all horizontal surfaces with warm soapy water after treatment.
- Allow access to the roof void area of the premises for a thorough fumigation

IMPORTANT PREPARATION AND TREATMENT INFORMATION:

Carpets and upholstered furniture are protected by regular brushing and vacuum cleaning. Infested areas should be cleaned thoroughly using a nozzle vacuum cleaner concentrating on removing debris and larvae from cracks and crevices, edges of carpets and under furniture.

Spring-cleaning is essential, and a thorough Adult Moth search must be made for infested materials which should, if possible be burned or sprayed with a suitable insecticide before disposal. Valued fabrics may be dry-cleaned or vacuum cleaned on both sides.

A professional Pest Management Treatment is only a small part of the process and good preparation and post treatment cleaning is essential when dealing with Case Bearing Moth.

Please feel free to call the office on 03 3321962 if you have any further queries or concerns regarding the treatment you have booked. We are only too pleased to offer advice and information!

**YOU MUST LEAVE THE PREMISES FOR A MINIMUM OF 2 HOURS AFTER TREATMENT.
IF YOU HAVE ANY TYPE OF BREATHING PROBLEM, CHEMICAL SENSITIVITY OR
ARE PREGNANT PLEASE REMAIN OUT OF THE PREMISES FOR A MINIMUM OF 6
HOURS.**
